1999-2000

MUSIC

HEADS Data Summaries in Music for 1999-2000 are compilations of data generated from the 1999-2000 Annual Reports required of all member institutions of the National Associations of Schools of Music. Also included is information from a group of non-member institutions who volunteered to participate in the HEADS survey.

The data are generally separated by type of institution (public or private). There are also Data Summaries divided by the highest degree granted in music; several Summaries combine all data into a single category.

If you have any questions or comments about the HEADS data system, please call or write:

DATA SUMMARY
1999-2000

MUSIC ENROLLMENT

Chart 1, Chart 2, and Chart 4 provide information on music major enrollment, number of degrees awarded in music, and percentage of credits generated in courses designed for non-music majors.

Chart 1 includes the number of institutions offering a specific major, music major enrollment in specific areas of concentration for Summer 1999 and Fall 1999, and the number of degrees awarded during the period July 1, 1998 to June 30, 1999.

Example: *Chart 1-2 – "Total Music Student Enrollment, All Institutions," Bachelor of Music Degree Programs.* During 1999-2000, 147 institutions offered areas of concentration in Composition. A total of 140 major students in Composition were enrolled in Summer 1999; 1,074 were enrolled in Fall 1999; and 203 Composition major students graduated between July 1, 1998 and June 30, 1999.

Chart 2 is a synopsis of Chart 1 by size and type of institution. There are three charts: for private institutions, for public institutions, and for all institutions. There is also a figure in each chart for total enrollment (all programs) in that category of institution.

Example: *Chart 2-9 – "Music Major Enrollment By Size and Type of Institution," Public Institutions, 201-400 Majors.* Sixty-four schools in this category offer Bachelor of Music degree programs. In those schools, 660 music major students were enrolled in Summer 1999; 5,232 were enrolled in Fall 1999; and 538 students graduated between July 1, 1998 and June 30, 1999.

Chart 4 analyzes the percentage of credit hours (either quarter hours or semester hours) generated by non-music major students.

Example: *Chart 4 – "Percentage of Semester Hours Generated By Non-Major Students," Private Institutions, 1-50 Majors.* The average percentage of semester credit hours generated by non-music major students in the 74 institutions in this category is 54%. The percentiles also provide a range of data for comparison.

DATA SUMMARY
1999-2000

MUSIC FACULTY NUMBERS

Chart 5 through Chart 13 provide a variety of calculations of the number of full-time faculty members. The charts calculate the number of faculty members by gender, highest degree earned, academic rank, length of service at the same institution, and tenure status. There is also a chart (12-2) that shows the number of institutions that do not maintain a tenure system.

Example: *Chart 10 – "Music Faculty by Gender and Length of Service: Institutions Categorized by Type of Support," Private Institutions, Female Faculty.* At the 198 private institutions reporting female faculty members, 239 have been employed full-time for 1-4 years, 196 have been employed for 5-9 years, and 382 have been employed for 10 years or more at the same institution. These figures are based on a total of 817 female faculty members at private institutions, representing 30% of all faculty at schools that reported faculty data by gender.

In many of the charts in this section, total rows have more entries than the sum of the men and women rows because some respondents were unable to provide faculty data by gender. For the same reason, the "male" and "female" charts are not all-inclusive.

Higher Education Arts Data Services
DATA SUMMARY
1999-2000

MUSIC FACULTY SALARIES AND PART-TIME FACULTY DATA

Chart 14 through Chart 19 provide data on salaries for faculty members, and more detailed information on part-time faculty members.

Chart 14 through Chart 16 provide salary statistics for the 1999-2000 academic year by rank for male, female, and all full-time faculty members. The charts include lowest and highest individual salaries, as well as average institutional salaries and the various percentiles. Salaries are based on a nine-month academic year excluding benefits.

Example: *Chart 15-2 – "Full-Time Faculty Salaries: Female – Public Institutions," 101-200 Music Majors.* Sixty-five institutions in this category reported female Associate Professors. Their average salary was $44,850. The lowest individual salary of any female Associate Professor of Music in this category was $27,648 and the highest individual salary was $71,395. The remainder of the figures represent percentile rankings of the average salaries for female Associate Professors employed by institutions in this category.

Chart 17 through Chart 19 provide data on part-time instruction at each school: average number of persons employed, average full-time equivalence (FTE), average part-time salaries, and average percentage of total instructional FTE (full-time and part-time). There are sections for part-time faculty with faculty status (individuals who have rank and are considered faculty members by the institution), adjunct faculty and teaching associates (individuals without faculty rank who teach at the institution and who are not graduate students), and graduate teaching assistants and teaching associates (graduate students who teach courses at the institution). Chart 17 provides data for part-time male faculty, Chart 18 provides data for part-time female faculty, and Chart 19 covers all part-time faculty.

Example: *Chart 19 – "Part-Time Instruction: All Part-Time Faculty," Adjunct Faculty or Teaching Associates, Private Institutions, 1-50 Music Majors.* At 66 institutions with part-time adjunct faculty or teaching associates, the average number of persons is 10.05. The average combined part-time workload of all adjunct faculty or teaching associates at an institution was 3.03. The average salary expenditure for individuals in this category was $3,321, and the adjunct faculty or teaching associates represented an average of 34% of the total instructional FTE.

DATA SUMMARY
1999-2000

MUSIC RATIOS

Charts 35 through 40, and Chart 43 provide further calculations of data derived from the survey. Each chart analyzes two aspects of the music unit's operation in order to make operational and budgetary comparisons.

Chart 35 provides semester credit hour and quarter hour production per FTE faculty member, including both full- and part-time faculty.

Chart 36 provides instructional salaries for both full- and part-time faculty per semester credit hour and quarter hour.

Chart 37 provides total expenditures per semester credit hour and quarter hour production.

There are two parts to each of these three charts: one for institutions reporting semester credit hour systems and one for institutions reporting quarter credit hour systems.

Example: *Chart 37 – "Total Expenditures Per Semester Credit Hour," Public Institutions, 1-100 Music Majors.* At 95 institutions in this category, the average expenditure per semester credit hour was $305. The percentile rankings are also provided.

Charts 38 through 40, and Chart 43 provide ratios using total number of music majors as their bases. The figures used to develop the ratios are reflected in "Total Expenditures Per Music Major Student" (Chart 38), "Number of Music Majors Per Full-Time Faculty Member" (Chart 39), "Number of Music Majors Per FTE Faculty Member" (Chart 40), and "Average Instructional Salary (Full and Part-Time) Per Music Major Student" (Chart 43). Each of these charts is presented in two versions: one covers institutions divided by size and type, and the other is based on the highest degree offered in music.

Example: *Chart 39 – "Number of Music Majors Per Full-Time Faculty Member," Highest Degree Offered in Music: Baccalaureate.* At 266 baccalaureate degree-granting institutions, the average number of music majors per full-time faculty member is 10. The percentile rankings are also provided to develop a range of responses.
